The Ecole Militaire Polytechnique organizes the second edition of the Computing Systems and Applications (CSA) conference on 13 and 14 December 2016. The conference is open to researchers, academics and industrials interested in the latest scientific and technological developments in different fields of computer science. CSA seeks high-quality research contributions in the form of well-developed papers. Topics of interest encompass research advances in all areas of computing systems and applications. The CSA 2016 topics include:

- Track 1: Computational Intelligence and Optimization
- Track 2: Computer Networks and Security
- Track 3: Information Systems and Software Engineering
- Track 4: Computer Graphics and Visualization

**Instructions for authors**

Papers must be written in English, carefully checked for grammar and spelling, addressing one or several conference topics.

Authors are kindly invited to submit articles of up to 5 pages (including figures, tables and references) in IEEE double-column conference format. Submission instructions will be available on the conference website.

Only original work will be considered. Hence, authors should make sure that their submissions do not substantially overlap works that have been already published or simultaneously submitted to another journal or conference. Papers that contain any form of plagiarism will be automatically rejected before the reviewing process. Original submissions will be examined thoroughly by at least two referees, and all accepted papers will be published in the conference proceedings.
